Description: Covered California was created to develop an organized marketplace where legal residents of California can buy health coverage that cannot be denied or canceled if you are sick or have pre-existing health conditions. All health plans purchased through Covered California must cover a range of services called Essential Health Benefits. These include services like doctor visits, hospitalization, emergency care, maternity care, pediatrics, prescriptions, medical tests, mental health care and others. Plans must cover preventive care services like mammograms and colonoscopies with no out-of-pocket cost to consumers. All newly old health plans, whether offered by Covered California or in the private marketplace, will be required to meet these basic requirements.

Program: Feral Cat Program
Description: Feline Network volunteers humanely trap feral cats in the San Luis Obispo community in order to decrease their population. Feral cats are the offspring of unaltered housecats who are lost or who have been abandoned by their owners. Because their kittens are not handled by humans, they grow up to be wary and fearful of people. We advocate a Trap-Neuter-Return program (TNR). This greatly reduces the birth rate, and it allows the cats to live out their lives in healthy, managed colonies. This world-wide TNR program has proven to be a success wherever it has been instituted. For those dealing with feral cats, we offer advice, we loan out traps, and we provide hands-on assistance if needed.
